*****St. Patrick's Day Line Dance:** Get into the spirit of the holiday and dance to music from the group sensation *Riverdance*. We teach the fun and popular line dance named *Coastin'* that includes a few step dance moves. \$FREE to registered dance students.

New Format: Now it's easier for new students to transition into class with their friends. Continuing students spend less time reviewing, and more time learning new steps.

Enrollment options:

Option 1: New students, or those without expertise in the month's dance style will sign up for the 1/2 hour intro class **AND** the Intermediate class immediately following. For example, in October if you have not learned the **Cowboy Cha Cha**, you will sign up for the Intro **Cowboy Cha Cha** class at 7:00 to 7:30pm AND the Intermediate class from 7:30-8:30pm. **Fee: \$55/couple per month**

Option 2: If you know the Cowboy ChaCha, sign up for the **Margaritaville Cha Cha** (intermediate class) from 7:30-8:30pm. **Fee: \$45/couple per month**

Give us a call if you are not sure where you fit in.

Intermediate Class Descriptions

Two Step Stampede

Join the drove of dancers two-stepping down the dance floor. This is the most popular dance style at local Country Western clubs. Learn moves like the Lasso, Drape, and Swinging Door.

Austrian Days' Waltz

Treat your valentine to a romantic routine that is a blend of choreography from the film *Sound of Music* and a popular daytime soap opera.

Salsa Sensations

Feel the Latin beat as you learn the Mambo and Merengue. Week 4 is a real treat joining your friends for the fabulous Salsa Circle Dance.

Swing Tempos

Fancy footwork, and combinations for slow, medium, and fast Swing music.

Moonlight Nightclub 2

New patterns added such as Corte, and Traveling Wrap to a flashy dance style that is perfect for that slow dance music you hear at special occasions and clubs.

Margaritaville Cha Cha

Don't be left on the sidelines for this popular, fun dance. New variations added to the basic Cowboy Cha Cha, such as the Window, and Double Pivots.
